Above you have two suggestions offered to you for Weekly Contributions.

1.) Suggested Weekly Contributions based on your annual income. This shows a donor giving either 10% or 5% of their annual income. 2.) Suggested Weekly Contributions based on your current weekly giving shows how much of a change a 10% to a 30% increase would be. We need to concern ourselves with reviewing our giving habits annually as the costs of church operations and ministries are on a constant increase each year as the annual cost of living, and doing business increases. Thank you for your support & God Bless!
